

Abdoul-Aziz ZOROM

Senior Full-Stack Developer & AI Expert

I build smart, scalable, and future-ready platforms where full-stack engineering meets artificial intelligence. Blending creativity, precision, and innovation to deliver next-gen digital experiences.

EXPERIENCE

- **Since April 2024 | Chief Technology Officer (CTO) | YULCOM Technologies Burkina**
Lead the technical direction and full-stack development of large-scale national and international digital transformation projects. Oversee multidisciplinary teams and contribute directly to backend and frontend development using Laravel, Livewire, Spring Boot, Angular, Docker, CI/CD pipelines, etc., to deliver secure, scalable, and high-performance platforms.
- **Since November 2022 | Consultant - Full-Stack Developer | Class Navigator (Netherlands)**
Engineered an innovative and user-friendly web platform designed to revolutionize travel planning and booking by allowing travel agents to compete in real time. Built with Laravel, Angular, Docker, OpenAI API, LangChain, and Elasticsearch.
URL: <https://www.bidonmytrip.com>
- **April – June 2023 | Consultant - Full-Stack Developer | Class Navigator (Netherlands)**
Designed and implemented a complete and feature-rich school management platform built with the TALL stack (Tailwind CSS, Alpine.js, Laravel, Livewire).
URL: <http://staging-classnavigator.bytebrew.nl/>
- **May 2022 - Mars 2024 | Lead Full-Stack Web Developer | Yulcom Technologies**
Led the design and development of complex web platforms using Laravel, Livewire, Spring Boot, Angular and modern DevOps tools. Collaborated closely with cross-functional teams to deliver scalable, secure, and high-performance solutions for both national and international projects.
- **10/2020 - 04/2022 | Lead Full-Stack Developer | Switch Maker**
Led the end-to-end development of dynamic web applications, contributing to both backend and frontend layers using Laravel, Vue.Js and Livewire. Designed and implemented scalable architectures, optimized performance, and ensured code quality through best development practices.

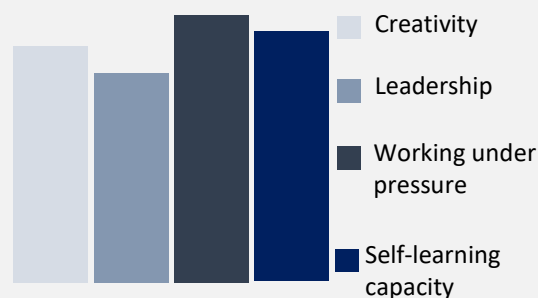

TRAINING

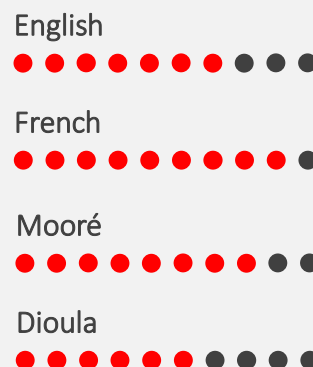

- **2017 - Bachelor's degree - AUBE Nouvelle University (Bobo Campus)**
Obtained the diploma of engineer of computer work option network technologies and computer systems
- **2014 - BAC D - Lycée Provincial des Banwa**
Obtaining the baccalaureate diploma series D

PERSONALITY

Languages

- **April - May 2021 | Laravel Trainer | Switch Maker**
Training of more than 100 people in Laravel and in the development techniques of E-services solutions within the framework of the E-Burkina Project for the extension of the virtual counter of the public administration

- **11/2018 | Attending AfricaCom 2018 in Cape Town, South Africa | Orange**
AfricaCom is the largest gathering of technology companies on the African continent. By invitation from Orange, we were able to participate in and global event.

- **Since 08/2018 | Founder of DigiClass**
DigiClass is an online learning platform created in 2018 with the mission of improving the academic level of students in Africa through the use of ICT.
Website: www.digiclass.co

- **02/2018- 03/2018 | Web Developer | DILIGO**
Development of a showcase site for the Catholic University of West Africa.
Website: <http://ucaouub.com/>

- **09/2017- 01/2018 | Web Developer | Swtich Maker**
It is about the development of the governmental platform called E-Compétences which is a directory of IT skills of companies and consultants of Burkina Faso.
Website: <http://www.e-competences.gov.bf/>

- **06/2017 - 08/2017 | Practical Training | Swtich Maker**
Study and Automation of IT services with Ansible.

- **03/2016 - 05/2016 | Implementation of a voip (voice over IP) system | U-AUBEN**

It was about to set up a system to make free phone calls using open source solutions including "asterisk".

- **12/2016 - 09/2017 | Developer | MyStudentWeek**
Member of the development team of MyStudentWeek winner of POESAM, Genie Tic 2016 and National Internet Week (NIS) Hackathon 2016. MyStudentWeek is a time management platform for universities and institutes.
Website: <https://www.mystudentweek.com>

AWARDS AND CERTIFICATES

- ▶ **08 - 11 / 2020 - Participation in the Founder Institute program.**
The Founder institute is a training and coaching program for entrepreneurs around the world.
- ▶ **09/2020 - Winner of GenieTIC.**
GeniTic is a competition to detect young talents in Burkina Faso.
- ▶ **10/2018 - AFIDBA Winner.**
I was one of the 4 national winners of the AFIDBA (AFD For Inclusive and Digital Business in Africa) Entrepreneurship Program
- ▶ **09/2018 - POESAM International Laureate**
Winner of the POESAM 2018 Special Content Award at the international level
- ▶ **03/2018 – Winner of #TEF Program**
Winner of the Tony Elumelu Foundation's Entrepreneurship Program with the DigiClass project.
- ▶ **010/2018 - Certificate in Entrepreneurship Training awarded by the Tony Elumelu Foundation.**

AREAS OF INTEREST

- ▶ **Hobbies:** Social networking, Reading, Travel, Meditation

CIVIL STATUS

- ▶ **Age:** 30 years old
- ▶ **Nationality:** Burkinabe
- ▶ **Single**

CONTACTS

 **+226 77-40-61-01**

 **abdoulazizzorom@gmail.com**

 **Karpala, Ouagadougou, BURKINA FASO**

 **LinkedIn.com/in/abdoul-aziz-zorom**

- **2016 | Developer | GestCom**
Development of GESTCOM which is a commercial management application based on Microsoft Access (VBA).
- **2015-2016 | Trainer | Wel Multi-Services Nouna**
Trained over 100 people in MS Office during National Internet Week (NIS) 2016.

SKILLS

► Programming languages and Tools :

► Artificial intelligence Frameworks & Technologies:

✓ Frameworks & Libraries

- ❖ LangChain and LangGraph (agent workflows, orchestration).
- ❖ LlamaIndex (retrieval pipelines with LLMs).

✓ Agentic AI & Multi-Agent Orchestration

- ❖ CrewAI, AG2 (AutoGen), IBM BeeAI (multi-agent systems, memory, feedback loops, autonomous behavior).
- ❖ Agentic RAG, agents with memory, iteration, conditional logic.

✓ Retrieval-Augmented Generation (RAG)

- ❖ RAG application design (full pipelines, retrievers).
- ❖ Vector databases & retrievers (advanced techniques).
- ❖ FAISS and ChromaDB for vector search.

✓ Multimodal GenAI

- ❖ Building multimodal generative AI applications (text + audio, images, videos).

✓ Prompting & Tool Use

- ❖ Prompt engineering and function calling for LLM apps.

✓ Model & API Integration

- ❖ OpenAI API (LLM integration in production).
- ❖ Groq API
- ❖ Ollama
- ❖ Elasticsearch for vector search / retrieval in RAG pipelines.

► Web Frameworks:

- ✓ LARAVEL,
- ✓ LIVEWIRE,
- ✓ Spring Boot
- ✓ ANGULAR,
- ✓ REACT,
- ✓ Alpine.js
- ✓ Vue.js

► DevOps:

- ✓ **Docker:** Creating and managing containers with the popular containerization platform.
- ✓ Github Actions
- ✓ **Ansible:** Automation of IT tasks.

► Other technologies:

- ✓ **Alfresco:** Archiving and collaboration technologies.
- ✓ **ELK Stack:** Elasticsearch, Logstash, Kibana.
- ✓ **Asterisk:** Open source Voice over IP technologies.

► Networks, computer systems and telecommunications:

- ✓ OSI MODEL,
- ✓ TCP/IP PROTOCOL,
- ✓ INTERCONNECTION EQUIPMENT and ROUTING,
- ✓ CISCO PACKET TRACER.

► Video editing tools:

- ✓ OpenShot Video Editor
- ✓ OBS Studio
- ✓ DaVinci Resolve

► System environment:

- ✓ WINDOWS, WINDOWS SERVER, DOS,
- ✓ LINUX, UBUNTU SERVER,
- ✓ MAC OS,
- ✓ ANDROID.

Certifications & Achievements

IBM RAG and Agentic AI Professional Certificate

IBM / Coursera – Sep 2025

<https://coursera.org/verify/professional-cert/0TI07UB3R97Z>

Building AI Agents and Agentic Workflows (Specialization)

IBM / Coursera – Sep 2025

<https://coursera.org/verify/specialization/25UWS5XT1U5W>

RAG for Generative AI Applications (Specialization)

IBM / Coursera – Aug 2025

<https://coursera.org/verify/specialization/9B3ND26WFMVJ>

Senior Laravel Certification – Laravel 12

LARAVEL Certifications – Jan 2026

<https://verifier.certificationforlaravel.org/74882ab6-ec3a-4505-9ad8-90ea8ca48592>

Agentic AI with LangGraph, CrewAI, AutoGen and BeeAI

IBM / Coursera – Sep 2025

<https://coursera.org/verify/4Q48X8P16GRG>

Agentic AI with LangChain and LangGraph

IBM / Coursera – Sep 2025

<https://coursera.org/verify/8QSNCLSZRCOX>

Fundamentals of Building AI Agents

IBM / Coursera – Sep 2025

<https://coursera.org/verify/XV8QCC4ZXXZA>

Build Multimodal Generative AI Applications

IBM / Coursera – Sep 2025

<https://coursera.org/verify/XC1FVA9C7C3S>

Advanced RAG with Vector Databases and Retrievers

IBM / Coursera – Aug 2025

<https://coursera.org/verify/JD347EJ3C4ZH>

Vector Databases for RAG: An Introduction

IBM / Coursera – Aug 2025

LLM, LangChain, RAG, Agent : Créez vos apps boostées à l'IA

Udemy – Aug 2025

<https://ude.my/UC-055e0933-eed9-4515-b5fe-80a65af1a59e>

Bien débuter avec Spring et Spring Boot pour Java

Udemy – Aug 2025

<https://ude.my/UC-253ab6b0-c045-4bfa-91b0-af29aa8bb3f6>

Créez une application Java avec Spring Boot

OpenClassrooms – Feb 2025

[Certificate #8410226406](#)

Organisez et packagez une application Java avec Apache Maven

OpenClassrooms – Feb 2025

[Certificate #2256290763](#)

Développez des sites web avec Java EE

OpenClassrooms – Feb 2025

[Certificate #1150414144](#)

Apprenez à programmer en Java

OpenClassrooms – Jan 2025

[Certificate #1159258130](#)

Mettez en place votre environnement Python

OpenClassrooms – May 2024

[Certificate #2086580628](#)

Apprenez les bases du langage Python

OpenClassrooms – May 2024

[Certificate #9278585451](#)

Perfectionnez-vous sur Angular

OpenClassrooms – Jan 2023

[Certificate #8755595587](#)

Complétez vos connaissances sur Angular

OpenClassrooms – Dec 2022

[Certificate #6863705582](#)

Débutez avec Angular

OpenClassrooms – Nov 2022

[Certificate #1105471529](#)

Débutez avec React

OpenClassrooms – Apr 2022

[Certificate #4297753613](#)

Programmez en orienté objet en PHP

OpenClassrooms – Aug 2020

[Certificate #8135927411](#)

Optimisez votre déploiement en créant des conteneurs avec Docker

OpenClassrooms – Mar 2020

[Certificate #1178293359](#)

Ansible Essentials: Simplicity in Automation

Udemy / Red Hat – Mar 2020

<https://ude.my/UC-9fff03e5-bfb2-4dcc-b6b1-1aa2b0c46198>

Les clés pour réussir son référencement web

OpenClassrooms – Feb 2020

[Certificate #5997622006](#)

Utilisez Ansible pour automatiser vos tâches de configuration

OpenClassrooms – Feb 2020

[Certificate #6354638916](#)

Some achieved projects

In the following sections, you will find some of my achievements.

Note: Projects with unspecified links have not been deployed.

► BidOnMyTrip

BidOnMyTrip is an innovative and user-friendly web platform designed to revolutionize the way you plan and book your dream vacations. With just a few clicks, you can unlock a world of possibilities and let travel agents compete to create the perfect vacation tailored to your desires.

This platform has been developed with Laravel and Angular.

URL: <https://www.bidonmytrip.com/>

► Class Navigator

Class Navigator is a complete and feature-rich school management platform.

This platform was developed with the TALL stack (Tailwind CSS, Alpine.JS, Laravel, and Livewire)

URL: <http://staging-classnavigator.bytebrew.nl/>

► DigiClass

DigiClass is a web and mobile platform for online and home courses that allows :

Students from 6th to 12th grade can access courses, exercises and quizzes to learn, practice and self-evaluate.

The students parents can easily find a qualified teacher for their children's home schooling, monitor and pay for the teacher's services online.

URL: <https://www.digiclass.co/>

► Lebonken

Lebonken is a Marketplace that allows users to have an online store, to sell and buy. Lebonken was developed with Laravel.

URL: <https://www.lebonken.com/>

► GovPay

GovPay is an electronic payment platform for the online services of the Burkina Faso public administration.

Developed with Laravel, GovPay has been designed to embed several payment methods.

► SMGES

SMGES is an accounting management platform that allows companies to manage their accounting more easily even without knowledge of accounting. The platform allows to generate automatically all the financial statements of the company.

SMGES has been developed with Laravel and is compliant with OHADA accounting standards.

► AgriTube

AgriTube is a platform for agricultural training through videos in the local languages of Burkina Faso. AgriTube was developed with Laravel for the benefit of the Ministry of Agriculture, Hydro-Agricultural Development, Mechanization and Animal and Fisheries Resources.

URL: <https://agritube.gov.bf>

► **Associations and political parties virtual counter**

The Single Window for Associations is a platform for the administrative management of associations (national associations, foreign associations, unions, foundations), political parties and formations developed for the Ministry of Territorial Administration, Decentralization and Security (MATDS). This platform allows the MATDS to manage from end to end the whole circuit of management and follow-up of an association, a party or a political formation. The platform allows MATDS to manage Non Profit Organizations (NPO) in the framework of the fight against money laundering and terrorism financing.

The platform also allows the Official Gazette to manage the publication of the recognition acts of associations.

Developed with Laravel, Le Guichet is designed to be used at the central, regional and provincial levels.

URL: <https://www.dgipap.gov.bf>

► **Agriken**

Agriken is a Marketplace developed for the benefit of rural actors and which allows them to promote and market their agricultural products. Agriken was developed with Laravel.

► **Platform for the management of civil status documents**

The platform for requesting and managing civil status records was created within the context of the E-Burkina project and allows :

- Users to submit applications for civil status documents.
- The civil status administration of all the town halls in Burkina Faso is responsible for managing the entire application processing circuit up to the generation of the requested copies of civil status documents.

This platform was developed with Laravel.

► **Registration platform for the National Agricultural Training School (ENAF) of Matourkou.**

This platform has been realized within the context of the E-Burkina project and allows:

- Candidates who wish to apply to ENAF of Matourkou to submit their applications online, pay their application fees and their tuition fees in case of admission.
- To the administration of the ENAF of Matourkou to be able to manage the applications and the training sessions.

The registration platform for ENAF in Matourkou was developed with Laravel.

URL: <https://inscriptions-enaf.gov.bf>

► **Website of the Catholic University of West Africa (UCAO)**

The website of the UCAO was created with WordPress.

URL: <http://ucao-uub.com>

► **E-Compétences**

E-Compétences is a directory of IT skills of companies and consultants in Burkina Faso. E-Compétences was developed in PHP for the Ministry of Digital Transition, Posts and Electronic Communications.

URL: <http://www.e-competences.gov.bf/>

► **VOIP System**

It is a system of voice on IP that I set up at the university Aube Nouvelle of BOBO allowing to make telephone calls via an IP network. This system had been set up with " Asterisk " which is an OPEN SOURCE technology

► GestGarage

GestGarage is a garage management application developed in PHP.

► GESTCOM

GESTCOM is a stock management application developed in VBA (Microsoft Access).
